DAMP WALLS.—NEW PATENT PAINT, as used at the TOWER, by order of HER MAJESTY'S HONOURABLE BOARD of ORDNANCE; at the TUNNEL; ZOOLOGICAL GARDENS, Regent's-park, and various other public and private buildings; in quantities to finish twenty square yards for 10s.

PATENT LIQUID CEMENT for the fronts of houses, for beauty pre-eminent, giving the appearance of fine cut stone, and only one-eighth the cost of Oil Paint. In casks of 1, 2, and 3 cwt. at 2s. 10s. and 3s. each.

PATENT MINERAL ZINC PAINTS, invaluable for cheapness, beauty, and permanence, ready for use. White Stone and Lead, 8s. Oxford and Blues, 4s. per gallon.

PATENT MINERAL PAINT, very permanent, half the usual price; only 3s. per gallon.

NEW PATENT COLOUR for inside work, may be applied on Wood, Stucco, Cement, or over Oil Paint. No smell, and will dry in an hour. In casks of 1 cwt. at 14s.

G. BELL and CO. Steam Mills, 2, Wellington-street, Goswell-street, London.

HUBBUCK'S PATENT WHITE ZINC PAINT.—THE PERMANENT WHITE of the Ancients, by the gentlemen hitherto restricted to the use of the artist, is now offered at the price of the ordinary white lead.

Four years since the proprietors placed their manufacture on a large scale, and put this elegant Paint in competition with White Lead.

Its confessed superiority over every other paint hitherto known brought forward various imitations.

These inferior productions, frequently made from zinc ores, containing lead, arsenic, and other deleterious material, alike injurious to health, detered its body, and reducing the preservative properties for which the original paint stands pre-eminent.

In justice to the proprietors these should not be confounded with the original, even though sold under the pretence that it is all the same.

Hubbuck's paint is entirely free from any injurious properties whatever; it is healthful in the manufacture, healthful in use, and healthful to occupants of rooms newly painted with it.

As a guard to the painter against the substitution of the inferior paints, each cask is stamped

HUBBUCK, LONDON, PATENT,

and if the cask has not been so marked, the reason is obvious.

The powdered White Zinc also may be had for grinding in oil; also for use for porcelain cards, for japanners, for gutta percha, and for plaster decorations, and the other purposes where it is used with size, gum, varnish, spirit &c. &c.

A circular with full particulars may be had of THOMAS HUBBUCK and SON, Colour Manufacturers, opposite the London Docks.

PURE PATENT WHITE ZINC PAINT, of the VIEILLE MONTAGNE ZINC MINING COMPANY of BELGIUM.—This Paint is superior in every respect to White Lead, which it surpasses in whiteness and brilliancy; it grows very hard after it is applied, and is, therefore, unexceptionable of a very high polish. It is unaffected by sea-water, sulphuretted hydrogen, or any other gases.

WHITE ZINC PAINT having some of the poisonous qualities of White Lead, avoids the dangerous darkness to which workmen, as well as persons in painting newly-painted houses, are subjected.

The VIEILLE MONTAGNE COMPANY import the Oxide in casks bearing their mark, VM, without which none are genuine, and is to be obtained dry or ground at the Company's Agents at the following places, viz.:—London, Liverpool, Birmingham, Hull, Newcastle, Leith, Glasgow, Bristol, Plymouth, Norwich, Ipswich, Dublin, Cork, Belfast, Jersey, Portsmouth, Poole, and the Isle of Wight; and from Messrs. Blundell, Spence, and Co. Hull. It may also be obtained from the Grinding Agents, Messrs. C. DEVOY and Co. 2, King William-street, City. Wholesale Agents, Mr CHARLES JACK, 4, Tottenham-court, New-road and 28, Upper Thames-street, who sells it in kegs of 14 lbs. 21 lbs. 28 lbs. and upwards, at low rates; and Messrs R. ANDERSON and Co. Timber-brah, Leith, wholesale and retail.

The Company also employ a painter, who will undertake any description of painting in Zinc by contract.

Since its introduction into the United Kingdom, the Admiralty and the most eminent professional men have given it their preference. The public is cautioned, that if White Zinc Paint is adulterated, it becomes a very inferior paint, and peels and washes off.

For further particulars apply to Mr. H. T. SCHMOLL, General Agent for the United Kingdom, at the Company's Offices, 19, Manchester-buildings, Westminster.

THE VIEILLE MONTAGNE ZINC MINING COMPANY beg to inform the public that they have appointed Messrs. T. and S. KNIGHT, of Great Suffolk-street, Southwark, as their painters, who will be ready to execute any description of painting and decorating with the Pure Patent White Zinc Paint.

THE WASHINGTON CHEMICAL COMPANY, NEWCASTLE-ON-TYNE;

Manufacturers of

PATTINSON'S OXICHLORIDE of LEAD.—The Washington Chemical Company having, during the last year, established a Manufactory of Pattinson's Oxichloride of Lead on a large scale, and being able to supply it with regularity, and to execute orders without delay, now proceed to bring this new and valuable preparation of Lead before their friends and the public, quite sure that it will not, in the present age, be condemned because it is new, and that it, judged by its merits, it must make its way, and finally take its place as one of the important manufactures of the country.

Pattinson's Oxichloride of Lead is a chemical combination of one equivalent of Chloride of Lead, and one equivalent of Oxide of Lead; it being well known that common White Lead is a chemical combination of one equivalent of Oxide of Lead, and one equivalent of the carbonate of Carbonic Acid, constituting what is called in chemical language, Carbonate of Lead. Now there is no reason to conclude that Carbonate of Lead is the only compound of lead suitable as a paint, and still less that it should be the best compound of lead for that purpose. In point of fact it is not so, for the newly-discovered Oxichloride is most, if not in all respects, is far superior; its colour is brilliantly white, and in a number of cases it has been tried against the best White Lead that could be obtained, and after a period of upwards of two years it has been found to retain its white colour, considerably better than the lead against which it was tried.

But the chief and by far the most important advantage it possesses is its remarkable and ever-lasting superiority of Body; by which term the power of covering surface well and extensively is understood among Painters. The attention of the discoverer was at a very early period drawn to this circumstance, and since that time the Washington Chemical Company have had abundant opportunities of placing its superiority in this important particular beyond all doubt. They have themselves performed a number of experiments, and have also caused a number of experiments to be performed, in the large way, by various practical men, to ascertain accurately the covering power as compared with the best White Lead, and they now state the proportion to be as 60 to 100, that is, 60 lbs. of Oxichloride Paint will cover as much surface as 100 lbs. of the best White Lead, the mixing of coat being in the same proportions; besides this, the coating is thicker and more protective, both in and out of doors, as the Oxichloride dries into a hard, tenacious layer, more like an Enamel than paint.

In using the Oxichloride, no difference in the materials with which it is mixed is required. Oil and Turpentine being employed as usual both for work technically called Flatting, and for work intended to be varnished. For the use of Paper Stainers and Leather Dressers, the Oxichloride is found to be peculiarly suitable. The Washington Chemical Company strongly recommend this newly-discovered substance to the notice of consumers, both on account of its economy and its intrinsic good qualities as a paint.

AGENTS.

LONDON	Messrs. Blundell, Spence, and Co. 8, Upper Thames-st.
LIVERPOOL	Mr. Rishd. Cooke, 7, Rice-lane.
MANCHESTER	Messrs. Johnson and Rothwell.
LEEDS	Mr. James Dearden.
SUNDERLAND	Messrs. T. and E. G. Jopson.
DEVONSHIRE AND CORNWALL	Mr. John Yeoun.
EDINBURGH AND EAST COAST OF SCOTLAND.	Mr. Kinloch, Pearson, Tavistock and Plymouth
GLASGOW AND WEST COAST OF SCOTLAND.	Mr. Wm. Bailey, jun. Greendykes-place, Edinburgh.
DUBLIN AND SOUTH OF IRELAND	Mr. John Kilmaster, Glasgow.
BELFAST	Mr. F. Lindsay, 31, Middle Abbey-street, Dublin.
	Messrs. William Stevenson, jun. and Co.

DURRAND'S "BONDED and SUFFERANCE WHARF" TIMBER-PRESERVING WORKS, ROTHERHITHE.—METHYLLE process consists in preparing timber with creosote, or oil of tar, and is particularly applicable for Railway Sleepers, Bridge Timber, Telegraph Posts, Piers, Docks, Harbours, &c.; and the Outside Planking of Ships and Barges. And also for use in the colonies, as being perfectly impervious to the attacks of all land or marine insects. PAYNE'S, Mr W. BURNETT'S, and MARGARY'S processes, in addition to their preservative properties, are likewise non-combustible, and are, consequently, adapted to her Majesty's Dock Yards, as a preventive of fire in Ship Building; and are also extensively used in House, Farm, and general Building.

Rotherhithe has the most complete Machinery for the application of the above processes that has been erected on these premises, which, being close to the great Timber Depôt of the Docks, are advantageously situated for land conveyance, or reshipment; and from possessing Sufferance Privileges, are, consequently, equally applicable for Colonial and Foreign Trade.

Scale of charges and every particular of P. ST. QUINTIN, Superintendent, on the Wharf; or at Mr. BURT'S Office, 8, Charlotte-row, Mansion-house, City.

MINTON and CO.'S ENCAUSTIC and other PATENT TILES for Churches, Entrance Halls, Conservatories, Balconies &c.; Antique, Geometrical, and Alhambric Mosaics, manufactures of a highly decorative character and extreme durability. Slabs and Tiles for Fireplaces and Hearths, Copings for Grates, Door Furniture, White Glazed and Ornamental Tiles for Baths, Dairies, and Kitchen Ranges, may be had in great variety at their Warehouses, 9, Albion-place, Blackfriars-bridge, London, and at their Manufactory, Stoke-upon-Trent, Staffordshire.

WHITE SUFFOLK and RED PACING BRICKS of superior quality. Moulded Bricks to any pattern.

COWLEY, KENT, and ESSEX BRICKS; also Yellow and Pale Malm Seconds, Cutters, Paviors, Shippers, &c. &c.

KENTISH RAG STONE of the finest quality, and of the blue stone as much as required by architects, can now be supplied, at a FURTHER and CONSIDERABLE REDUCTION in PRICE.

Apply to Mr. BENJAMIN GOUGH, 2, Newington-crescent, Newington Butts.

BRICKS.—Malm Cutters, Yellow and Pale Seconds, Paviors, and Pickings of good and sound quality, constantly on sale at H. DODD'S Brick-fields, which are only a quarter of an hour's walk from the City.—H. D. earnestly requests purchasers to favour him with a visit, in order to inspect his stock, and to judge for themselves.

Malm Place, half-washed Stocks, and Place Bricks also on sale. These bricks are sound, well burnt, and unusually free from defects; a very large proportion of the stock being suitable for external facing.

Apply to HENRY DODD and CO. at the Counting-house, Horton Brick-fields, Grange-walk, near the Rosemary Branch, Hoxton.

N.B. Red pit sand of approved quality constantly on sale upon reasonable terms. This sand, from its not containing any saline matter, is acknowledged to be preferable to river sand.

BRICKS.—FOR SALE, a quantity of large PLINTH, which are well adapted for boundary walls, and which have a very good effect when used with bricks for quoins, &c. in buildings of various descriptions. They are also of the best kind for flued work for churches, &c. and can be delivered alongside our wharf on the Thames below Vauxhall-bridge at 6s. per ton in quantities of not less than 60 tons at a time. At the present price of bricks, a very large saving may be effected by their use. Discount allowed for cash.—Apply to MEESON and CO. Manufacturers of Bricks, Tiles, Lime, &c. Gray's Thurrock, Essex.

PAN TILES, 52s.; Plain, 35s.; superior White Suffolk Facing, Red ditto, Fire Brick, &c.—Best Smeatbridge, Welsh, and Newcastle Fire Bricks, Lumps Tiles, Clay, Windsor Loam, &c. Gas and other shaped Goods, Windsor and Nonsuch Oven Tiles and Bricks Dutch and English Clinkers, Patent Malthith and Corn-drying finely-perforated Tiles, 12in. and 9in. Paving ditto, unequalled in quality and colour, at WARD'S old-established Hoxdown Wharf, Bankside, Southwark, London. Thames Sand, Concrete, Gravel, &c. &c.

PRIZE MEDAL AWARDED TO PRAKE'S TERRO-METALLIC TILES, PIPES, &c.

ILLUSTRATED TRADE LISTS, containing much information useful for reference; also unsolicited testimonials respecting a MATERIAL which, when well wrought, is probably superior to every other for drains or conduits, for ridges, hips, valleys, and every part of roofs, for plain or chequered floors, for paving and erections of a strong and durable nature, also many other purposes, supplied genuine by THOMAS PRAKE, proprietor of Prake's "Terro-Metallic", No. 4 WHARF, CITY-ROAD BASIN, LONDON, and as THE TILEMEN, FUNERALS, STAFFORDSHIRE. The lists contain both prices by number, and approximate cost by measure. It is solicited that letters be prepaid, and state if Staffordshire or London prices are wanted. Specimens were at the GREAT EXHIBITION, Class F. No. 122 (having been at first No 111).

PRIZE MEDAL, CLASS 28.

HIGH-PRESSURE VALVE COCKS.—LAMBERT'S PATENT.

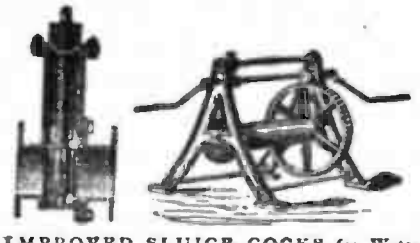
These Cocks have, during the last five years, been extensively and most successfully used in many Towns under continuous high pressure, varying from 100 to 350 feet; their efficiency and durability is by experience established.

The equilibrium ball-valve is simple and certain in its action, and is cheaper than the common Cocks now in use.

Screw-valve, self-acting, and other cocks, upon economic arrangements, suitable for public buildings, cottages, asylums, &c.

THOMAS LAMBERT and SON,

Brass and Iron Founders, Short-street, New-cut, Lambeth.



IMPROVED SLUICE COCKS for Water, Gas, or Steam, brass-faced, and Sluices raised by square thread, engine-turned Screw, working in Brass Nut, in every respect as good as can be manufactured, are offered at the following prices per inch:—

2 inch.	3 and 4-inch.	5 to 8-inch.	10 to 18-inch.
1l.	1l.	1l.	1l.

Lithographs of the improved self-lubrication, and various other constructions, with descriptions and prices attached, may be had on application.

Single purchase Builders' Cranks, as above, fitted with Tee Handles, and Wrought Iron Braces and Spindles, with bolt to throw in and out of gear, price 6s. each. Delivered in London free.

BARRETT, EXALL, AND ANDREWES,

Katesgrove Iron Works, Reading.

Agents in London.—DEANE, DRAY, and DEANE, where the above may be seen.

GREAT SIMPLIFICATION and ECONOMY in FIXING CLOSETS.

By the use of UNDERHAY'S PATENT REGULATORS, the SEPARATE CISTERN, SERVICE-BOX, VALVE, CRANKS, and WIRE are dispensed with, yet ensuring a BETTER flush of water than from any service-box.

The manufacturers, CHARLES BOTTEN and SON, solicit a call from all parties interested, they having pan, valve self-acting, and Jennings's Closets fitted with this apparatus, and fixed for inspection; or they will be happy to forward drawings of the same.

CHARLES BOTTEN and SON, Brass Founders, Engineers, Gas Meters and Fitting Manufacturers, Crawford-passage, Clerkenwell, London.

BEETSON'S PATENT VALVE-CLOSET.—

JOHN WARNER and SONS,

Cresscent, Jewin-street, London.

Sole Manufacturers.

VALVE-CLOSETS are the best in principle, and the most cleanly and inodorous in action.

This Patent Closet combines the proved cleanliness, cheapness and durability, and the following advantages:—

The Valve is protected from wear and injury by India-rubber; and cisterns, valves, cranks, and wires, are not required, and any number can be fixed to one supply.

A great variety, and large Stock of

PANS, HOPPERS, SELF-ACTING, and SHIP CLOSETS, &c. always on hand.

JENNINGS'S EARTHENWARE WATER-CLOSET.

This Closet has all the ADVANTAGES of a PAN or VALVE CLOSET WITHOUT ANY DISADVANTAGES. It displaces no impure air; it is free from all machinery; it is noiseless in action; it is unpurchasable in its material; it saves the expensive lead trap. The basin has a large water surface, and is so formed that it cannot be soiled. Anything improper thrown into the basin can be immediately seen and removed; and the trap being above the floor can be reached through the basin without disturbing the seat.

JENNINGS'S SELF-CLOSING STOOL COCKS.

For supplying the above.

With Plain Handles	12s.
With Plain Flat Plate and Handle	12s.
With Sunk Plate and Ivory Handle	13s.
With Extra Large Sunk Plate and Ivory Handle	16s.

JENNINGS'S INDIA-RUBBER TUBE CLOSETS.

By applying Underhay's Water Regulator, the above closet is now as easy to understand and fix as a cock to a sink.

JENNINGS'S INDIA-RUBBER TUBE COCKS

Are working most satisfactorily in eighteen public buildings.

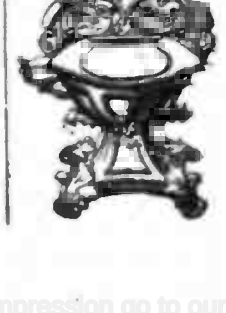
JENNINGS'S NEW BELL TRAP

Is well worthy the attention of Architects.—Apply,

G. JENNINGS,

ENGINEER AND GENERAL BRASSFOUNDER,

36, Great Charlotte-street, Blackfriars-road.



PRIZE MEDAL WATER-CLOSETS,

PATENT FINE-COCKS,

PATENT HIGH PRESSURE BIB, STOP, AND BALL COCKS.

Kirkwood's Registered Tubular Water-Closet,
Self-acting and Common Water-Closets,
Bateman and Moore's and Chrime's Patent Hydrants,
Chrimes's Patent High Pressure Single and Double
LOOSE VALVE COCKS.

GUTTA PERCHA TUBING, CISTERN LINING, and other leadless articles for

DRAINAGE, SEWAGE, AND WATERWORKS PURPOSES.

May be seen (the Closets and Cocks as fixed ready for use) on application to

THOMAS BEGGS, 27, SOUTHAMPTON-STREET, STRAND, LONDON, late of 12, Fleet-street; or

QUERT and CHRIMES, BRASS WORKS, ROTHERHAM.

Drawings, Descriptions, and Testimonials will be forwarded, per post, on application as above.

From fifty to sixty of the Closets, and forty of the Patent Fine-Cocks were fixed for use in the Crystal Palace.
